TO: Farmland Preservation Participants and/or Nutrient Management Cost Share Recipients

FROM: Morgan Link; Marquette County, Agronomist

Nutrient Management Checklists Due:

You are receiving this letter because our records show you are enrolled in the Farmland Preservation Program **OR** received cost share dollars from the State of Wisconsin to complete a Nutrient Management Plan (590).

When you initially signed up for the Farmland Preservation Program (FPP) or received cost sharing, you turned in your Nutrient Management Plan and checklist to our office. The next step is to submit an updated checklist to our office every spring (prior to planting).

Training Available:

We will again be providing free training this year, where you will be able to write and certify your own Nutrient Management Plan. The training will be held Tuesday, March 7th in Montello at the Marquette County Health and Human Services Building, Room 106 (428 Underwood Montello, WI) from 10:00am-3:00pm.

There will also be another training available for producers that have already taken our class in the past and have a Nutrient Management Plan. This class will focus on updating your existing plan in Snap Plus. This training will be held on Thursday, March 9th from 10:00am-3:00pm also at the Marquette County Health and Human Services Building, in Room 106 (428 Underwood Montello, WI)

I HIGHLY recommend taking these classes so you can write and self-certify your own plan. This will save you the cost of paying someone else to do it for you!

Of course, you have the option of hiring an agronomist/consultant to develop your plan. Many of you already hire a consultant so you can ignore the training, but please forward this information on to your agronomist/consultant so that they are aware that an updated Nutrient Management Plan needs to be sent to our office. Thank you.

Please call 608-296-2815 Ext. 4 or email morgan.link@wi.nacdnet.net to register for either or both of the classes. If you have any questions please let me know. Thank you!
